WELCOME SPEECH

Assalaamu'alaikum Warahmatullaahi wabarakaatuh

Medical science constantly evolves with time. It is our duty as medical professional to update our knowledge regularly in order to give the best treatment to our patients. As we entered the post pandemic era, a refresher course on basic surgical knowledge and techniques becomes very important. Recent technological advancements should be balanced with mastering new techniques and instruments in order to minimize surgery time, risk, and to maximize the patients' outcome. Although this would not be possible without collaborative interprofessional efforts that assess the patient with holistic approach.

Jakarta Annual Surgical Symposia (JASS) designed specifically to meet various training needs for surgeons, general practitioner, nurses and the entire surgical care team. This event also promote networking and develop a stronger voice for all surgical professionals in perioperative care. It also provides a premier platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends and concerns as well as practical challenges encountered and solutions adopted in the fields of surgery.

Our accredited speakers will explore cutting-edge technology, connectivity, human factors, skills and research to support the transformation of improved care and patient safety.

This symposium was created by the Department of Surgery, Universitas Indonesia, to enhance and refresh both the knowledge and the skills of our medical practitioners for daily surgical cases.

We sincerely believe that this may be beneficial for all surgical professionals.

Wassalamu'alaikum, warahmatullahi wabarakatuh.

dr. Kshetra Rinaldhy, SpB. SubspPed(K)

Chairman JASS

Assalaamu'alaikum Warahmatullahi wabarakatuh, Warm greetings for all of us.

First and foremost, let us give thanks for Allah SWT for blessing us with health and grace so we can gather for **3rd Jakarta Annual Surgical Symposia (JASS) 2023**.

JASS 2023 is an important and joyful event for our comitte in Department of Surgery Faculty of Medicine Universitas Indonesia. It is a return of JASS after the first and the second in 2012 and 2013.

As the head of Department of Surgery Faculty of Medicine Universitas Indonesia, I would like to congratulate for the success of JASS and wishing this event could increase knowledge and skill in surgical field for doctor and nurses across the country. This event invites expert from both national and international level. It is our hope that this event could broaden knowledge and open perceptives as a clinician and researcher which will surely benefitted the patient.

JASS comprised of several events such as webinar, workshops including cadaveric dissection, topped off with symposium that will be held offline.

We hope all of the participants will enjoy the entire event proceedings and all will be done smoothly. We would like to thank all sponsors and partners for their contribution so this event could be possible.

Wassalamu'alaikum, warahmatullahi wabarakatuh.

Dr. dr. Diani Kartini, SpB.Subsp.Onk(K)
